

## BABY LEAF LETTUCE VARIETIES COMPARISON CHART

Recommended Jang Seed Roller: XY-24 or XY-36

### High Performance

These varieties are developed to perform well at an early stage of maturity. Vigorous, uniform seedling growth and thicker leaf textures help increase yield within a short growing period. The uniform growth also allows for consistent leaf size even at variable plant densities. In addition, we select for loftiness to prevent leaves sticking together post-harvest, as well as thinner petioles to reduce cut surface area. Most high-performing baby leaf varieties will result in loose and lightweight heads if grown as full-size lettuce. Speed of growth is within a range of 28–40 days.

Type	Part #	Variety	Speed	Description
Oakleaf	3754G <b>OG</b>	<b>NEW</b> Spritzer	Slow	Tango type with wavy, 3-D leaf structure. Slow growing but darker color. DM: EU 16–25, 27, 28, 30–32; US 5–8. MT0-30.
	3754	Spritzer		
	2803	Sulu	Medium	Lime green leaves with heavy, 3-D texture and good flavor. Very upright habit. DM: EU 17. MT0-30.
Romaine	4617G <b>OG</b>	<b>NEW</b> Carlsbad	Fast	Crunchy, juicy, sweet romaine. Cupped leaf provides high loft. Upright habit; maintains quality in the field. DM EU 16–20, 22–25, 27, 28, 30, 32; US 5, 7, 9. MT0-30.
	4204G <b>OG</b>	<b>NEW</b> Powerhouse	Slow	Dark red and upright with very narrow petiole. Thin leaf with crisp texture. DM: EU 16–21, 23–26, 28–33, 35; US 5–9. MT0-30.
	4204			
Summer Crisp	3268G <b>OG</b>	Coastline	Slow	Wider, medium-green leaves with fancy, serrated margins and a heavy, crunchy texture. Great flavor and excellent field holding. MT0-30.

Type	Part #	Variety	Speed	Description
Oakleaf	3331G <b>OG</b>	Clearwater	Medium	Dark green leaves with heavy texture and sweet flavor. Very upright for easy harvesting. DM: EU 16–35, US 5–9; Nr, LMV. MT0-30.
Romaine	4225	<b>NEW</b> Alboreto	Slow	Bright, dark red leaf with ruffled margin and upright growth habit. DM: EU 16–37, US 5–9; Nr. MT0-30.
	4123G <b>OG</b>	Pensacola	Fast	Vigorous early growth, dark green, and upright. DM: EU 16–29, 32, 34; US 5–9; Nr, TBSV, LMV. MT0-30.
	250	Red Rosie	Very Fast	Strong, upright leaves with crunchy romaine texture and sweetness. Fast growing but maintains narrow leaf. DM: EU 16, 19, 21, 23. MT0-30.
Summer Crisp	3154G <b>OG</b>	Celinet	Medium	Narrow petiole with spikey margins and crisp texture. Great field-holding ability. DM: EU 16–35, US 5–9; Nr, TBSV, LMV. MT0-30.
	4203	Tambay	Medium	Deeply incised, dark green, glossy leaves with long harvest window. One-cut attributes for baby leaf production. DM: EU 16–37, US 5–9; Nr. MT0-30.

### Heritage

These varieties have stood the test of time for flavor, reliability, and wide adaptability. While they are faster growing and have thinner, more delicate leaves than our high-performance baby leaf varieties, they offer minimal disease resistance and often lack field-holding capacity. Many are dual-purpose and will mature into nice full-size heads. Speed of growth is within a range of 28–40 days.

Type	Part #	Variety	Speed	Description
Bibb	423G <b>OG</b>	Deer Tongue	Fast	Unique narrow, pointed, buttery leaves with a crunchy rib and excellent flavor. MT0-30.
Leaf	425N	Black Seeded Simpson	Medium	Bright blonde, curled leaves. Excellent flavor. Non-MT0.
	431G <b>OG</b>	Red Sails	Fast	Wide, mottled red leaf with narrow petiole. AAS winner. MT0-30.
	428G <b>OG</b>	Waldmann's Dark Green	Fast	Medium-green, curled leaf with wavy margins. MT0-30.
Lollo	2326NG <b>OG</b>	Dark Red Lollo Rossa	Slow	Heavily frilled, dark red leaf margin with green interior. Maintains strong red color under low-light conditions. Non-MT0.
Oakleaf	2235N <b>OG</b>	Green Saladbowl	Fast	Delicate, lobed lime-green leaves. AAS winner. Non-MT0.
	2233N <b>OG</b>	Red Saladbowl	Fast	Delicate, lobed burgundy leaves. Non-MT0.
	405N	Tango	Medium	Our selected strain of this classic salad mix ingredient. Great loft, strong regrowth. Non-MT0.
Romaine	2716NG <b>OG</b>	Flashy Trout Back	Very Fast	Attractive speckled, smooth leaves. Seed densely for narrower petioles and leaves. Developed by Frank Morton of Wild Garden Seed. Non-MT0.
	349G <b>OG</b>	Jericho	Very Fast	Bright green and fast growing. Seed densely for narrower petioles and leaves. MT0-30.
	2208G <b>OG</b>	Outredgeous (MT0-30)	Very Fast	Ruffled bright red leaves with very fast early growth. Developed by Frank Morton of Wild Garden Seed.
	2208N	Outredgeous (Non-MT0)		
	2234N <b>OG</b>	Parris Island	Very Fast	Upright, medium-green oval leaves. Good flavor and texture. Seed densely for narrower petioles and leaves. Non-MT0.
	2236N <b>OG</b>	Rouge d'Hiver	Very Fast	French heirloom variety with smooth, mottled red leaves. Excellent flavor. Non-MT0.
